## **PROJECT:**

### **❖ Portfolio-website**

**Technologies:** HTML, CSS, Bootstrap;

A portfolio website created with HTML and CSS to effectively showcase personal work, skills, and achievements. It involves structuring content with semantic HTML elements for accessibility and SEO, applying consistent and responsive styling with CSS to ensure a visually appealing and adaptable design. The project emphasizes practical skills in layout techniques, like Flexbox and Grid, and adheres to design principles such as consistency and hierarchy to enhance user experience.
